PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1966

The gross payrolls of provincial government employees were 4.1 p.c. lower during the quarter ended March 31, 1966 than in the October - December 1965 quarter. This was due primarily to decreased seasonal activities in the "Transportation and Communications", "Natural Resources" and "Recreation and Cultural Services" functions.

Data of Departmental Services, Government Enterprises and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education are included. Functional data for the province of Quebec are included in Tables 9-10-11-12 for the first time commencing January 1, 1966.

The 257,175 employees reported for March 1966 represents 3.2 per cent increase over March 1965 (249,013) and a 3.9 per cent decrease from December 1965 (267,730).

Payrolls of employees for the January - March 1966 quarter totalled \$297.4 million, a gain of 10.7 per cent over January - March 1965 (\$265.5 million) and a decrease of 4.1 per cent from October - December 1965 (\$310.2 million).

Total payrolls of provincial employees (available for inclusion in this report) for the fiscal year April 1, 1965 to March 31, 1966 amounted to \$1,210. million. Employees in Departmental Services earned \$723.4 million or 59.8 per cent of the total while staff of Institutions of Higher Education received \$134.5 or 11.1 per cent. Those of Enterprises earned \$336.2 million or 27.8 per cent and Workmen's Compensation Board staffs received \$15.9 million or 1.3 per cent.

A complete description of the statistics included in this series is given together with other background detail in the Provincial Government Employment report for the April - June 1965 quarter.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1966

The gross payrolls of provincial government employees reached a new high in the quarter ending June 30, 1966. This resulted primarily from (1) the normal seasonal increases in the "Transportation and Communications", "Recreation and Cultural Services" and "Natural Resources" functions (2) an additional pay period occurring during this quarter for those employees that are paid on a fortnightly basis (3) and Government Enterprises which reported gains of 10.3 per cent in staff and 8.7 per cent in payroll.

Data for the Departmental Services, Government Enterprises and Workmen's Compensation Boards of British Columbia are not available for inclusion in the publication. Data for the Institutions of Higher Education as included. Due to unavoidable delays in reporting, estimates have been used for the month of June for the Province of Manitoba and for some of the departments in the Province of Quebec. Revised figures will be published in the next quarterly report.

The 285,583 employees reported for June 1966 represents 4.7 per cent increase over June 1965 (272,790) and a 10.9 per cent increase from March 1966 (257,453).

Payrolls of employees for the April-June 1966 quarter totalled \$316.7 million a gain of 10.8 per cent over April - June 1965 (\$285.6 million) and of 6.4 per cent from January - March 1966 (\$297.6 million).

Total payrolls of provincial employees (available for inclusion in this report) for the period January 1 - June 30, 1966 amounted to \$614.2 million. Employees in Departmental Services earned \$368.8 million or 60 per cent of the total while staff of Institutions of Higher Education received \$69.3 million or 11.3 per cent. Those of Enterprises earned \$168.0 million or 27.4 per cent and Workmen's Compensation Board staffs received \$8.0 million or 1.3 per cent.

EXPLANATORY NOTES

APRIL - JUNE 1966

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).
2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead College of Arts, Science and Technology
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music

University of Toronto, including - Concluded:
University Press
Ryerson Polytechnical Institute
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Saskatchewan Hospital
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. **PROVINCIAL GOVERNMENT ENTERPRISES:** These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or share capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently, they are reported separately from general fund activities for statistical presentation. A list of these enterprises by province follows:

4. **WORKMEN'S COMPENSATION BOARDS:** Separate data for the Workmen's Compensation Board of each province (for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and payrolls are reported monthly, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1966

The gross payrolls of provincial government employees (available for inclusion in this report) for the period July 1 - September 30 amounted to \$365.6 millions, an increase of 14.3 per cent over the \$319.9 reported for the previous quarter April - June 1966. This resulted from (1) the payment of salary increases retroactive to January 1, 1966, and the effect of these increases on the regular monthly payrolls, (2) the normal seasonal increases in the "Transportation and Communication" "Recreation and Cultural Services" and "Natural Resources" functions, (3) an additional pay period occurring during this quarter for many employees who are paid on a fortnightly or weekly basis, (4) increases in the Provincial Government Enterprises can be attributed to extended services and increased activities of the provincial Hydro Electric Commissions.

Data for the Departmental Services, Government Enterprises and Workmen's Compensation Boards of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education is included.

The 296,151 employees reported for September 1966 represents a 6.3 per cent increase over September 1965 (278,616) and a 2.7 per cent increase from June 1966 (288,438).

Total payrolls of provincial employees reported for the period January 1 - September 30, 1966, amounted to \$983.1 million. Employees in Departmental Services earned \$590.4 million or 60.1 per cent of the total, while staff of Institutions of Higher Education received \$108.6 million or 11.0 per cent. Those of Enterprises earned \$271.6 million or 27.6 per cent and Workmen's Compensation Board Staff received \$12.5 million or 1.3 per cent.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1966

The gross payrolls of provincial government employees (available for inclusion in this report) reached an all time high of \$336.6 million for the October - December 31 quarter an increase of 18.1 per cent over the \$310.2 million, reported for the same period of 1965. The 289,263 employees reported for December 1966 represents a 8.0 per cent increase over December 1965 (267,730) and a 4.8 per cent decrease from September 1966 (295,831).

Data of the Departmental Services, Government Enterprises and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institution of Higher Education are included.

The Departmental Services reported gross payrolls of \$215.0 million, a decrease of 2.0 per cent from the \$219.3 million reported for the previous quarter July - September 1966. This resulted from normal seasonal decreases in the "Transportation and Communications", "Recreation" and "Natural Resources" functions.

Gross payrolls reported for (1) Institutions of Higher Education (\$39.9) million, (2) Provincial Government Enterprises (\$107.0) million, (3) Workmen's Compensation Boards (\$4.7) million, increased respectively over the previous quarter by 1.6 per cent, 3.3 per cent, and 7.3 per cent. These increases are the result of (1) additional staff reported for the Institutions of Higher Education. (2) The payment of retroactive salary and wage increases and the effect of these increases in the cost of government services.

Total payrolls of provincial employees reported for the period January 1 - December 31, 1966 amounted to \$1,350.4 millions. Employees in Departmental Services earned \$806.0 million or 59.7 per cent of the total, while staff of the Institutions of Higher Education received \$148.6 million or 11.0 per cent. Those of the Government Enterprises earned \$378.6 millions or 28.0 per cent and Workmen's Compensation Boards received \$17.2 million or 1.3 per cent.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1966

Data of the Departmental Services, Government Enterprises and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institution of Higher Education are included.

The gross payrolls of provincial government employees (available for inclusion in this report) for the period January 1 - March 31, 1967 amounted to \$357.7 million a decrease of 2.5 per cent from the \$366.6 million reported for the previous quarter October - December 1966, payrolls reported for the same period in 1966 were \$297.6 million indicating an increase over the year of 20.2 per cent. The number of employees reported for March 31, 1967 were 277,937 a decrease of 3.9 per cent over the 289,270 reported for the month of December 1966 and a 7.9 per cent increase over the 257,453 over March 31, 1966.

Cumulative payrolls for the fiscal year April 1, 1966 - March 31, 1967 totalled \$1,410.6 million 16.5 per cent above the \$1,210.3 million for the same period 1965-1966.

The 175,367 employees reported by the Departmental Services as of March 31, 1967 represents 7.2 per cent increase over the 163,537 for March 31, 1966 and a 5.2 per cent decrease from December 31, 1966 (184,985). Totalled payrolls for the quarterly period January 1, - March 31, 1967 amounted to \$212.7 million a 19.2 per cent increase over the \$178.4 million for the same period in 1966 and 1.1 per cent decrease from the \$214.9 million for the previous quarter October 1, - December 31, 1966. This was due primarily to decreased seasonal activities in the "Transportation and Communications", "Natural Resources" and "Recreational (Parks etc.)" functions.

Total payrolls of provincial employees reported for the period April 1, 1966 - March 31, 1967 amounted to \$1,410.6 million. Employees in Departmental Services earned \$840.3 or 59.6 per cent of the total, while staff of the Institutions of Higher Education received \$154.1 million or 10.9 per cent. Those of the Government Enterprises earned \$398.6 million or 28.2 per cent and Workmen's Compensation Boards received \$17.6 million or 1.3 per cent.

Due to unavoidable delays in reporting, estimates have been used for the month of March for some departments. Revised figures will be published in the next quarterly report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1967

INTRODUCTION

The gross payrolls of provincial government employees (available for inclusion in this report) for the period April 1 - June 30, 1967 amounted to \$390.5 million an increase of 9.0 per cent from the \$358.3 million reported for the previous quarter January 1 - March 31, 1967. Payrolls reported for the same period in 1966 were \$319.8 million indicating an increase over the year of 22.1 per cent.

The number of employees reported for the last pay period in June 1967 were 309,396 an increase of 11.2 per cent from the 278,200 reported for the same pay period in March 1967 and an 8.3 per cent increase over the 285,583 employees reported for June 1966.

These increases are the results of (1) increase in the numbers of permanent employees required by the provincial governments to supply additional services. (2) The normal seasonal increases in "Transportation and Communication", "Recreational and Cultural Services", "Natural Resources" and "Health and Social Welfare" functions.

Due to unavoidable delays in the reporting of monthly data, estimates have been used for some departments for the month of June. Revised totals will be published in the next quarterly report.

Total payrolls of provincial employees reported for inclusion in this report for the first six months of 1967 January 1 - June 30 amounted to \$748.8 million. Employees in Departmental Services earned \$449.5 million or 60.1 per cent of the total while the staff of the Institutions of Higher Education received 82.3 million or 11.0 per cent. The employees of the Provincial Government Enterprises earned \$207.7 million or 27.7 per cent and Workmen's Compensation Boards staff received \$9.2 million or 1.2 per cent.

EXPLANATORY NOTES

APRIL - JUNE 1967

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national accounts income and expenditure series, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).
2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead College of Arts, Science and Technology
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music

University of Toronto, including - Concluded:
University Press
Ryerson Polytechnical Institute
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Saskatchewan Hospital
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. **PROVINCIAL GOVERNMENT ENTERPRISES:** These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or share capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently, they are reported separately from general fund activities for statistical presentation. A list of these enterprises by province follows:

Provincial Government Enterprises

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and payrolls are reported monthly, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1967

Data of the Departmental Services, Government Enterprises and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education are included.

Prior to January 1, 1967, regular employees of the Province of Ontario were paid 5 days in advance, i.e. a month end cheque was issued on the 24th or 25th of the month. Effective April 1, 1968 employees will be paid 9 days in arrears and Bi-weekly, to prepare for this, it has been necessary for the departments to gradually change pay days each month during the current year. This has resulted in some departments having only one pay day in August and others one pay day in September, and^Amarked reduction in the monthly ~~earnings~~ reported. (see footnote on table 3.)^A

PAYROLLS

The gross payrolls of the provincial government employees (available for inclusion in this report) for the period July 1 - September 30, 1967 amounted to \$424.7 million an increase of 7.9 per cent over the \$393.6 million reported for the previous quarter of April - June 1967 and a 15.9 per cent increase over the \$366.5 million reported for the same period in 1966.

The number of employees reported for the last pay period in September 1967 was 326,365 an increase of 3.8 per cent from the 314,297 reported for the same pay period in June 1967 and a 10.3 per cent increase over the 295,831 employees reported for September 1966.

These increases are the result of normal seasonal increases in the "Transportation and Communication", "Health and Social Welfare", "Recreational and Cultural Services" (PARKS), "Natural Resources and Primary Industries", (FORESTS) functions.

The 210,816 employees reported by the Departmental Services for the last pay period of September 1967 represents a 3.6 per cent increase over the 203,515 employees reported for the same period in the month of June. The payrolls for the quarterly period July 1 - September 30, 1967 amounted to \$246.1 million a 3.8 per cent increase over the \$237.2 million reported for the April 1 - June 30, 1967 period. The total payroll for the July - September quarter was affected by a change in the pay days for the Province of Ontario.

Total payrolls of provincial employees reported for the period January 1 - September 30, 1967 amounted to \$1,179.7 million. Employees in Departmental Services earned \$699.7 million or 59.3 per cent of the total while the staff of the Institutions of Higher Education received \$130.5 million or 11.1 per cent. The employees of Provincial Government Enterprises earned \$335.2 million or 28.4 per cent and the staff of the Workmen's Compensation Boards received \$14.3 million or 1.2 per cent.

Due to unavoidable delays in the reporting of monthly data, estimates have been used for some departments for the month of September. Revised totals will be published in the next quarterly report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1967

Data of the Departmental Services, Government Enterprises and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education are included.

The gross payrolls of the provincial government employees (available for inclusion in this report) for the period October 1 - December 31, 1967 amounted to \$434.3 million, an increase of 2.8 per cent over the \$422.3 million reported for the previous quarter of July 1 - September 30, 1967 and an 18.5 per cent increase over the \$366.6 million reported for the same period in 1966.

The number of employees reported for the last pay period in December 1967 was 307,267 a decrease of 5.7 per cent from the 325,627 reported for the same pay period in September 1967. This decrease resulted from the normal seasonal reduction of wage earning employees in the "Transportation and Communications", "Recreational and Cultural Services (Parks)", "Natural Resources and Primary Industries" functions.

The gross payrolls reported for (1) Departmental Services (\$258.1) million, (2) Institutions of Higher Education (\$50.3) million, (3) Workmen's Compensation Boards (\$5.1) million, for the period October 1 - December 31, 1967 increased respectively over the previous quarter by 4.8 per cent, 4.5 per cent and 6.7 per cent. These increases are the result of (1) additional staff reported for the Institutions of Higher Education, (2) the increased cost of government services.

The Provincial Government Enterprises reported gross payrolls of (\$120.7) million, a decrease of 2.1 per cent from the \$123.2 million reported for the July 1 - September 30, 1967 quarter. This decrease can be attributed to the normal seasonal fluctuation of casual staff.

Total payrolls of provincial employees reported for the period January 1 - December 31 - 1967 amounted to \$1,611.7 million. Employees in Departmental Services were paid \$957.9 million or 59.4 per cent of the total, the gross payrolls of the staff of the Institutions of Higher Education amounted to \$180.8 million or 11.2 per cent. The employees of the Provincial Government Enterprises received \$453.6 million or 28.2 per cent, while the staff of the Workmen's Compensation Boards were paid \$19.4 million or 1.2 per cent of the total.

Due to unavoidable delays in the reporting of monthly data, estimates have been used for some departments for the month of December 1967. Revised totals will be published in the next quarterly report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1968

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1967

Data of the Departmental Services, Government Enterprises and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education are included.

Cumulative payrolls (available for inclusion in this report) for the period January 1 - March 31, 1968, amounted to \$433.5 million, 1.1 p.c., down from the \$438.1 million reported for the previous quarter, October - December, 1967. Payrolls reported for the same period in 1967 were \$361.5 million indicating an increase over the year of 19.9 p.c. The number of employees reported for the last pay period in March, 1968 was 306,887, a 1.0 p.c., decrease from the 308,567 reported for the same period in December, 1967 and a 10.2 p.c., increase over the 278,231 reported for the last pay period in March 1967.

The gross payrolls reported for (1) Departmental Services (\$257.3) million, and (2) Provincial Government Enterprises (\$119.6) million for the period January 1 - March 31, 1968, decreased respectively from the previous quarter by 1.0 p.c. and 2.8 p.c. These decreases are the result of seasonal activities in the following functions: "Transportation and Communications", "Recreational and Cultural" and "Natural Resources and Primary Industries".

The Institutions of Higher Education reported gross payrolls of \$51.2 million. Workmen's Compensation Boards reported gross payrolls of \$5.4 million. These figures reflect an increase of 1.3 p.c. in Institutions of Higher Education payrolls and 4.5 p.c. in Workmen's Compensation Boards over the previous quarter. These increases are the result of (1) additional staff reported and (2) the increased cost of government services.

Total payrolls of provincial employees for the period April 1, 1967 to March 31, 1968 amounted to \$1,687.1 million. Employees in Departmental Services were paid \$999.7 or 59.2 p.c. of the total, the gross payrolls of the staff of Institutions of Higher Education amounted to \$191.7 million or 11.4 p.c. The employees of Provincial Government Enterprises received \$475.3 million or 28.2 p.c., while the staff of Workmen's Compensation Boards were paid \$20.4 million or 1.2 p.c., of the total.

Table 13. Gross payrolls are included in this issue for the first time by Type of Organization for the fiscal years ending March 31, 1962 to 1968 inclusive. The total of \$1,687.1 million for the fiscal year ended March 31, 1968 is an increase of 101.5 p.c. over the corresponding total of \$837.4 million for the fiscal year ended March 31, 1962. These figures represent the gross salaries, wages, retroactive salary increases and overtime payments made in each period. Compilations were prepared from the monthly reports of data received from each of the participating governments with the exception of the Province of Quebec for the fiscal years 1962 to 1965; data for these years were compiled from the Province of Quebec Public Accounts. This table will be included annually in the first quarterly report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rate of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1968

NOTE

See page 22 and on for explanation of the statistics included in this report.

This issue of "Provincial Government Employment" reflects changes in pay administration for two provincial governments; the province of Ontario adopted bi-weekly pay periods effective April 1, 1968 and the province of Manitoba implemented bi-weekly pay periods as of June 1, 1968. These changes, which result in the data reported covering two bi-weekly pay periods (instead of monthly), will be noted under the relevant headings. Provincial Governments which have implemented bi-weekly pay administration are, Prince Edward Island, Quebec, Ontario, and Manitoba.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The cumulative gross payrolls (excluding the Province of British Columbia as noted above) for the period April 1 - June 30, 1968 amounted to \$451.4 million an increase of 4.1 per cent over the \$433.5 million reported for the previous quarter January 1 - March 31, 1968. The number of employees reported for the last pay period in June was 334,348 an increase of 8.9 per cent from the 306,887 reported for the same period in March 1968. These increases are the result of seasonal activities in the following functions "Transportation and Communications", "Recreation and Cultural Services", and "Natural Resources and Primary Industries".

Gross payrolls reported for provincial employees for the period January 1 to June 30, 1968 amounted to \$885.0 million. Employees in Departmental Services were paid \$515.7 million or 58.3 per cent of the total, the gross payrolls of the staff of the Institutions of Higher Education amounted to \$103.8 million or 11.7 per cent. The employees of Provincial Government Enterprises received \$254.1 million or 28.7 per cent, while those of the Workmen's Compensation Boards were paid \$11.2 million or 1.3 per cent of the total.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments in each Province for the month of June 1968. Revised totals will be published in the next quarterly report.

EXPLANATORY NOTES

APRIL - JUNE 1968

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national accounts income and expenditure series, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. **DEPARTMENTAL SERVICES:** In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprises the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Provincial Government Finance" (Publication No. 68-207).
2. **PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION:** These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Teachers' Colleges, Agricultural and Vocational Colleges, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead University.
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music

University of Toronto, including - Concluded:
University Press
Ryerson Polytechnical Institute
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Saskatchewan Hospital
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. ENTERPRISES: These are self reporting administrative bodies established by government to produce goods and services for sale to governments or others at a price to the users designed to compensate largely or wholly for the costs or to yield a profit.

4. WORKMEN'S COMPENSATION BOARDS: Separate data for the Workmen's Compensation Board of each province (for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and payrolls are reported monthly, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1968

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1968.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that Province are included.

The cumulative gross payrolls (excluding the Province of British Columbia as noted above) for the period July 1 - September 30, 1968 amounted to \$503.5 million an increase of 11.5 per cent over the \$451.4 million reported for the previous quarter April 1 - June 30, 1968. The number of employees reported for the last pay period in September was 339,674 an increase of 1.6 per cent from the 334,348 reported for the same period in June 1968. These increases are due primarily to the normal seasonal activities in the following functions: "General Government Services," "Transportation and Communications", "Natural Resources and Primary Industries" and the increase in cost of government services.

Gross payrolls reported for the provincial employees for the period January 1 to September 30, 1968 amounted to \$1,388.5 million. Employees in Departmental Services received \$813.2 million or 58.6 per cent of the total, the staff of the Institutions of Higher Education were paid \$163.0 million or 11.5 per cent. The employees of Provincial Government Enterprises received \$395.4 million or 28.5 per cent, while those of the Workmen's Compensation Boards were paid \$16.9 million or 1.2 per cent of the total.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1968

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1968.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that Province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The gross payrolls of the provincial government employees (available for inclusion in this report) for the October 1 - December 31-1968 quarter amounted to \$506.4 million an increase of 0.5 per cent over the \$504.1 million reported for the previous quarter July 1 - September 30-1968. This increase resulted from the payment of retroactive salary increases covering the period from April 1968 to November 1968.

The number of employees reported for the last pay period in December 1968 was 326,338 a decrease of 3.1 per cent from the 336,857 reported for the same period in September 1968. This is a normal decrease resulting from the seasonal reduction of wage earning employees in the "Transportation and Communication" "Recreational and Cultural Services (Parks)" "Natural Resources and Primary Industries" Functions.

Total payrolls reported for the provincial government employees for the period January 1 to December 31-1968 amounted to \$1,910.1 million. Employees in the Departmental Services were paid \$1,115.4 million or 58.4 per cent while those of the Institutions of Higher Education, the Provincial Enterprises and the Workmen's Compensation Boards respectively received \$223.9 million or 11.7 per cent, \$547.3 million or 28.7 per cent and \$23.4 million or 1.2 per cent of the total.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments for the month of December 1968. Revised totals will be published in the next quarterly report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1969

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1968.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that Province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The gross payrolls of the provincial government employees (available for inclusion in this report) for the period January 1 - March 31 - 1969 amounted to \$498.1 million a decrease of 2.1 per cent from the \$508.4 million reported for the previous quarter of October 1 - December 31 - 1968. The number of employees reported for the last pay period in March 1969 was 321,264 a decrease of 1.5 per cent from 326,072 for the same period in December 1968. These are normal decreases resulting from a seasonal reduction of part-time employees in the following functions "Transportation and Communications", "Natural Resources and Primary Industries".

Total payrolls reported for the provincial government employees for the fiscal year April 1 - 1968 - March 31 - 1969 amounted to \$1,966.9 million. Of this amount the employees of the Departmental Services received 58.8 per cent or \$1,157.7 million while those of the Institutions of Higher Education, the Provincial Government Enterprises and the Workmen's Compensation Boards in the amounts of \$234.0 million or 11.9 per cent, \$552.0 million or 28.1 per cent and \$23.2 million or 1.2 per cent respectively.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments for the month of March 1969. Revised totals will be published in the next quarterly report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1969

NOTE

See page 22 and on for explanation of the statistics included in this report.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that Province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The cumulative gross payrolls (excluding the Province of British Columbia as noted above) reported for the second quarter 1969, amounted to \$517.4 million, an increase of 3.7 per cent over the \$498.9 million reported for the first quarter of 1969 and 14.0 per cent over the \$453.6 million reported for the April 1 June 30, quarter of 1968. The number of employees reported for the last pay period of June 1969 was 350,533 an increase of 9.0 per cent over the 321,502 reported for the same period in March 1969 and a 3.4 per cent increase over the 338,990 reported for the last pay period in June 1968. These increases are the result of: 1. The normal seasonal activities within the following functions "Transportation and Communications" "Recreational and Cultural Services" "Natural Resources and Primary Industries". 2. The payment of retroactive salary and wage increases, and the effects of these increases in the cost of government services.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments for the month of June 1969. Revised totals will be published in the next quarterly report.

EXPLANATORY NOTES

APRIL - JUNE 1969

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national accounts income and expenditure series, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprises the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Provincial Government Finance" (Publication No. 68-207).
2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Teachers' Colleges, Agricultural and Vocational Colleges, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead University.
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music

4. WORKMEN'S COMPENSATION BOARDS: Separate data fro the Workmen's Compensation Board of each province (for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. Salary Earners include all those employees whose remuneration is based on an annual rate. These employees and positions may be of a continuing, term, sessional or part time nature. Wage Earners are divided into two groups: 1) Wage Earners-Full-Time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are NOT employed on a full-time year round basis. Examples are seasonal, part-time and casual wage earners.

Employment and payrolls are reported monthly and in general are divided between Salary Earners and Wage Earners according to their basis of remuneration. The Gross Payrolls represent all monies paid to employees during the month, before any deductions for income tax, etc. For employees paid on a weekly or fortnightly basis the amount paid during all pay periods ending in the month is included. Retroactive and overtime payments are included in the month the payments are made. The numbers of employees relate to employment on the last day of the month or at the end of the final pay period of the month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

COMPARABILITY BETWEEN NUMBERS AND EARNINGS

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the payrolls reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations, in numbers employed, occur during a month it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1969

NOTE

A complete description of the method of collection and the Statistics included in this series is given, together with other background detail, in the report for April - June 1969. Revised data for the province of Manitoba for the Months of May and June 1969 are included in Tables 1 and 2 page 6 of this report; these revisions are the result of additional pay periods omitted from the previous report.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that Province are included.

The number of employees relates to employment on the last day of the month or the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payment are included in the month the payments are made.

The cumulative gross payrolls of provincial government employees (available for inclusion in this report) for the third quarter 1969, amounted to \$568.6 million, an increase of 9.9 per cent over the \$517.6 million reported for the previous quarter of April - June 1969 and 12.8 per cent over the \$504.1 million reported for the July - September period of 1968. The number of employees reported for the last pay period of September 1969 was 354,057 an increase of 0.5 per cent over the 352,285 reported for the same period in June 1969 and a 5.1 per cent increase over the 336,857 reported for the last pay period in September 1968. These increases are the result of: Normal seasonal activities, within the following functions "Transportation and Communications" "Health" "Recreational and Cultural Services" "Natural Resources and Primary Industries".

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments in the Province of Quebec and the NorthWest Territories. Revised totals will be published in the October - December report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1969

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1969.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The gross payrolls of the provincial government employees (available for inclusion in this report) for the fourth quarter 1969, amounted to \$569.2 million a slight decrease from the \$569.6 million reported for the previous quarter of July - September 1969. The fourth quarter totals include an additional pay period for those employees who are paid on a Bi-Weekly basis.

The number of employees reported for the last pay period in December 1969 was 337,851 a decrease of 4.5 per cent from the 353,837 reported for the same period in September 1969. This decrease was the result of the normal seasonal reduction of part-time employees in both the salary and the wage earning categories.

Total gross payrolls reported for the provincial government employees for the calendar year January 1 to December 31 1969 amounted to \$2,155.1 million. Employees in the Departmental Services were paid \$1,266.1 million (58.7%) while those of the Institutions of Higher Education, the Provincial government Enterprises, and Workmen's Compensation Boards respectively received \$355.6 million (16.5%), \$508.0 million (23.6%), and \$25.4 million (1.2%) of the total ^{267.6} ~~27.7~~

Due to unavoidable delays in reporting, estimates have been used for the government of the Northwest Territories. Revised totals will be published in the next quarterly report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale on the open market at a price normally set to recover costs.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1970

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1969.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

Cumulative payrolls (available for inclusion in this report) for the first quarter 1970 amounted to \$556.2 million an increase of 11.5 per cent from the \$498.8 million reported for the same period in 1969 and a decrease of 2.1 per cent from the \$568.1 million reported for the previous quarter of October - December 1969. The number of employees reported for the last pay period in March 1970 was 333,050 an increase of 3.6 per cent over the 321,502 employees reported for the same pay period in March 1969 and a 1.4 per cent decrease from the 337,682 employees reported for the last pay period in December 1969.

The decrease in the gross earnings and the number of employees from the previous quarter is the result of normal seasonal reduction of part-time employees in both the salary and the wage earning categories.

Total gross payrolls for the provincial government employees (included in this report) for the period April 1969 to the last pay period in March 1970 amounted to \$2,211.5 million. Employees in Departmental Services were paid \$1,290.9 million (58.4%) while those of Institutions of Higher Education, Provincial Government Enterprises and Workmen's Compensation Boards respectively received \$279.6 million (12.6%), \$615.1 million (27.8%), \$25.9 million (1.2%).

Due to unavoidable delays in reporting, estimates have been used for the government of the Northwest Territories. Revised totals will be published in the next quarterly report.

Comparability Between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the gross payrolls reported, the reason for this being that the numbers of employees relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed occur during a month, it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1970

NOTE

See page 22 and on for explanation of the statistics included in this report.

Data of the Departmental Services, Government Enterprises and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that Province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The cumulative gross payrolls (excluding the Province of British Columbia as noted above) reported for the second quarter 1970, amounted to \$581.2 million, an increase of 4.4 per cent over the \$556.5 million reported for the first quarter of 1970 and 12.3 per cent over the \$517.6 million reported for the April 1 - June 30, quarter of 1969. The number of employees reported for the last pay period of June 1970 was 358,015 an increase of 7.5 per cent over the 333,161 reported for the same period in March 1970 and a 1.6 per cent increase over the 352,285 reported for the last pay period in June 1969. These increases are the result of: 1. The normal seasonal activities within the following functions "Transportation and Communications" "Recreational and Cultural Services" "Natural Resources and Primary Industries". 2. The payment of retroactive salary and wage increases, and the effects of these increases in the cost of government services.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments for the month of June 1970. Revised totals will be published in the next quarterly report.

EXPLANATORY NOTES

APRIL - JUNE 1970

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national accounts income and expenditure series, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprises the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Provincial Government Finance" (Publication No. 68-207).
2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Teachers' Colleges, Agricultural and Vocational Colleges, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead University.
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music

University of Toronto, including - Concluded:

4. WORKMEN'S COMPENSATION BOARDS: Separate data from the Workmen's Compensation Board of each province (for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. Salary Earners include all those employees whose remuneration is based on an annual rate. These employees and positions may be of a continuing, term, sessional or part time nature. Wage Earners are divided into two groups: 1) Wage Earners-Full-Time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are NOT employed on a full-time year round basis. Examples are seasonal, part-time and casual wage earners.

Employment and payrolls are reported monthly and in general are divided between Salary Earners and Wage Earners according to their basis of remuneration. The Gross Payrolls represent all monies paid to employees during the month, before any deductions for income tax, etc. For employees paid on a weekly or fortnightly basis the amount paid during all pay periods ending in the month is included. Retroactive and overtime payments are included in the month the payments are made. The numbers of employees relate to employment on the last day of the month or at the end of the final pay period of the month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

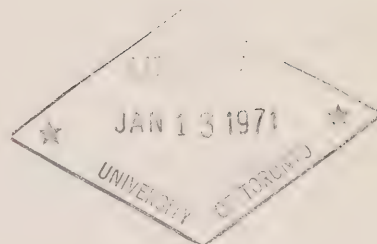

COMPARABILITY BETWEEN NUMBERS AND EARNINGS

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the payrolls reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed occur during a month it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1970

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1970.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The gross payrolls of the provincial government employees (available for inclusion in this report) for the third quarter of 1970 amounted to \$642.8 million an increase of 10.6 per cent over the \$581.3 million reported for the previous quarter of April - June 1970 and a 12.9 per cent increase over the \$569 million reported for the same period in 1969

The number of employees reported for the last pay period in September 1970 was 369,181 an increase of 3.1 per cent over the 357,976 reported for the same pay period in June 1970 and a 4.3 per cent increase over the 353,837 reported for the last pay period of September 1969.

These increases are the result of: 1. Normal seasonal activities within the following functions, "Transportation and Communications" "Health" "Recreational and Cultural Services". Natural Resources and "Primary Industries". 2. Additional pay periods for those employees who are paid on a bi-weekly or weekly basis.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments in the Yukon and Northwest Territories. Revised totals will be published in the October - December 1970 report.

Comparability Between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the gross payrolls reported, the reason for this being that the numbers of employees relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed occur during a month, it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale on the open market at a price normally set to recover costs.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1970

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1970.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The gross payrolls of the provincial government employees (available for inclusion in this report) for the fourth quarter of 1970 amounted to \$648.5 million, a slight increase of 0.8 per cent over the \$643.1 million reported for the previous quarter of July-September 1970 and a 14.1 per cent increase over the \$568.1 million for the same period in 1969. These increases are the result of (1) additional pay periods for those employees who are paid on a bi-weekly or weekly basis. (2) Increases in salaries and other remunerations in departmental services and government enterprises plus the lump sum retroactive adjustments that accompanied these increases.

The number of employees reported for the last pay period of December 1970 was 357,284 a decrease of 3.3 per cent from the 369,450 employees reported for the same period in September 1970 and a 5.8 per cent increase over the 337,682 employees reported for the last pay period in December 1969. The decrease in the number of employees from the previous quarter is the result of normal seasonal reductions of part-time employees in both the salary and wage earning categories.

The cumulative payrolls for provincial government employees (included in this report) for the period January to the last pay period in December 1970 amounted to \$2,430.7 million. Employees in departmental services were paid \$1,417.8 million (58.3%) while those of institutions of higher education, provincial government enterprises, and workmen's compensation boards respectively received \$314.1 million (12.9%), \$671.2 million (27.6%), \$27.6 million (1.2%).

Due to unavoidable delays in reporting, estimates have been used for the government of the Northwest Territories. Revised totals will be published in the next quarterly report.

Comparability Between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the gross payrolls reported, the reason for this being that the numbers of employees relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed occur during a month, it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale on the open market at a price normally set to recover costs.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY — MARCH 1971

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April — June 1970.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

Cumulative payrolls (available for inclusion in this report) for the first quarter 1971 amounted to \$646.7 million, an increase of 16.2 per cent from the \$556.6 million reported for the same period in 1970 and a decrease of 0.3 per cent from the \$648.6 million reported for the previous quarter of October — December 1970. The number of employees reported for the last pay period in March 1971 was 353,695, an increase of 6.2 per cent over the 333,152 employees reported for the same pay period in March 1970 and a 1.0 per cent decrease from the 357,309 employees reported for the last pay period in December 1970.

The decrease in the gross earnings and the number of employees from the previous quarter is the result of normal seasonal reduction of part-time employees in both the salary and the wage earning categories.

Total gross payrolls for the provincial government employees (included in this report) for the period April 1970 to the last pay period in March 1971 amounted to \$2,520.9 million. Employees in Departmental Services were paid \$1,479.5 million (58.7%) while those of Institutions of Higher Education, Provincial Government Enterprises and Workmen's Compensation Boards respectively received \$324.0 million (12.8%), \$689.2 million (27.3%) and \$28.2 million (1.2%).

Due to unavoidable delays in reporting, estimates have been used for the government of the Yukon Territory. Revised totals will be published in the next quarterly report.

Comparability Between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the gross payrolls reported, the reason for this being that the numbers of employees relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed occur during a month, it will be seen that a comparison between the payrolls of all persons employed during the month and the number of strength at the end of the month would, in many cases, not be valid.

GLOSSARY OF PRINCIPAL TERMS USED

DÉFINITION DES PRINCIPAUX TERMES UTILISÉS

DEPARTMENTAL SERVICES

Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION

These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES

These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS

Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS

Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS

Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS

Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES

Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS

Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and overtime payments.

SERVICES MINISTÉRIELS

Aussi désignés par: activités des fonds généraux. Cela comprend les activités dirigées par les administrations publiques provinciales comme elles apparaissent dans leurs estimations et en plus, les dépenses de main-d'oeuvre des fonds administratifs ou spéciaux.

ÉTABLISSEMENTS PROVINCIAUX D'ENSEIGNEMENT SUPÉRIEUR

Ce sont les établissements d'enseignement au niveau universitaire qui sont sous le contrôle de l'administration publique provinciale mais qui ne sont pas administrés sous l'autorité d'un ministère.

ENTREPRISES DES ADMINISTRATIONS PUBLIQUES PROVINCIALES

Elles produisent des biens et services pour la vente aux administrations publiques ou aux autres agents économiques, à un prix généralement établi par référence à ses frais de production.

EMPLOYÉS À TRAITEMENT

Personnes qui touchent un traitement sur une base mensuelle ou annuelle. Ces emplois peuvent être permanents, à terme saisonniers, de session ou à temps partiel.

EMPLOYÉS À SALAIRE

Employés qui sont payés à l'heure, à la journée ou à la semaine.

EMPLOYÉS À SALAIRE À PLEIN-TEMPS

Personnes qui occupent un emploi permanent à plein temps.

AUTRES EMPLOYÉS À SALAIRE

Employés à salaire qui n'occupent pas d'emplois permanents et à plein temps (saisonniers, à temps partiel et intermittants).

NOMBRE D'EMPLOYÉS

Représente le nombre de personnes qui figurait sur la dernière feuille de paye du mois.

RÉMUNÉRATION BRUTE

La rémunération déclarée indique la paye brute de toutes les personnes payées pour le travail fait durant le mois qu'elles soient inscrites ou non sur la liste de paye à la fin du mois. Cela inclut les payes rétroactives, les ajustements de salaires et les paiements de temps supplémentaire.

INTRODUCTION

NOTE

See page 22 and on for explanation of the statistics included in this report.

NOTA

Voir page 22, pour une description de la statistique que comprend le présent document.

Data of the Departmental Services, Government Enterprises and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that Province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The cumulative gross payrolls reported by the provincial and territorial governments (excluding British Columbia as noted above) for the second quarter of 1971 amounted to \$690.3 million, an increase of 6.7 per cent over the \$646.7 million reported for the first quarter of 1971. The number of employees reported for the last pay period in June 1971 was 396,865 an increase of 12.2 per cent over the 353,695 reported for the same pay period in March 1971. These increases are the result of: (1) The inclusion in the Departmental Services of the province of New Brunswick of the Local School Boards. The expenditures of these school boards were assumed by the provincial government as part of the provincial "Program for Equal Opportunity" (2) The inclusion for the first time of the Calgary and Lethbridge campuses of the University of Alberta, in the Institutions of Higher Education. (3) Normal seasonal activities within the following functions: "Transportation and Communications" "Recreational and Cultural Services" "Natural Resources and Primary Industries".

Due to unavoidable delays in the reporting of monthly data estimates have been made for some departments for the month of June 1971. Revised totals will be published in the next quarterly report.

Les données des services ministériels, des entreprises publiques ainsi que la commission des accidents du travail en Colombie-Britannique ne sont pas disponibles et ne peuvent être inclus dans cette publication. Les données pour les établissements d'éducation supérieur dans cette province sont incluses.

Le nombre d'employés est celui du dernier jour du mois ou de la dernière période de paie du mois. La rémunération brute comprend tous les arguments versés aux employés pendant le mois, avant les déductions pour l'impôt sur le revenu, etc. Les paiements rétroactifs et de surtemps sont inclus dans le mois où ils ont été versés.

La rémunération brute (excluant la Colombie-Britannique comme mentionné ci-haut) pour le trimestre écoulé entre le 1^{er} avril et le 30 juin 1971, atteignait \$690.3 millions, soit une augmentation de 6.7 p. 100 par rapport aux \$646.7 millions du trimestre précédent. Le nombre d'employés déclarés à la fin de juin 1971 était de 396,865, soit une augmentation de 12.2 p. 100 par rapport aux 353,695 déclarés à la fin de mars 1971. Ces augmentations sont le résultat de: (1) l'intégration des commissions scolaires locales dans les services ministériels du Nouveau-Brunswick, les dépenses de ces commissions scolaires ayant été assumées par la province dans le contexte du programme "Chance égale" (2) l'inclusion pour la première fois parmi les établissements d'enseignement supérieur des campus de l'université d'Alberta à Calgary ainsi que celui de Lethbridge, (3) fluctuations saisonnières aux effectifs des fonctions suivantes: "Transports et communications", "Loisirs et culture", "Richesses naturelles et industries primaires".

A cause de délais inévitables dans la transmission des données mensuelles, des nombres ont dû être estimés pour quelques ministères pour juin 1971. Les rectifications qui s'imposent apparaîtront dans le prochain rapport trimestriel.

EXPLANATORY NOTES

APRIL — JUNE 1971

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 — December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national accounts income and expenditure series, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose of "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprises the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by Statistics Canada entitled "Provincial Government Finance" (Publication No. 68-207).
2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Teachers' Colleges, Agricultural and Vocational Colleges, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

NOTES EXPLICATIVES

AVRIL — JUIN 1971

Généralités

Ce bulletin présente des statistiques sur l'emploi et la rémunération dans neuf administrations publiques provinciales et dans celles du Yukon et des Territoires du Nord-Ouest. Les données sur les services ministériels et les entreprises publiques de la Colombie-Britannique ne sont pas encore disponibles. Le premier bulletin trimestriel de cette série portait sur la période du 1^{er} octobre au 31 décembre 1959.

Cette enquête sur l'emploi dans les administrations publiques provinciales a pour but: (1) de fournir des statistiques relatives aux séries sur la population active et sur les comptes nationaux du revenu et des dépenses, (2) de fournir aux administrations provinciales des chiffres qui constituent des mesures statistiques de l'emploi et (3) de mettre ces données à la disposition des groupes de recherche, des étudiants et du grand public.

Les données sur les services ministériels sont présentées par objet ou par "fonction". Cette analyse est utile de trois façons. Premièrement, elle rend possible une étude détaillée de l'emploi dans chaque province selon les principales fonctions ou les principaux objets. Comme ces fonctions ne sont pas modifiées par les changements de structure administrative, la série peut rester homogène pendant longtemps sous réserve de modifications très secondaires. Deuxièmement, puisque les différences entre les structures administratives ne touchent pas de façon importante la classification par fonction, il est possible de comparer la situation de l'emploi aussi bien entre les provinces qu'entre les divers niveaux d'administration. Troisièmement, cette classification rend possible l'analyse, pour chaque fonction, du rapport entre les dépenses pour l'emploi et les dépenses totales.

Couverture

Les données présentées ici portent sur quatre groupes.

1. SERVICES MINISTÉRIELS: dans ce bulletin, les activités des fonds généraux sont prises en compte sous la rubrique "Services ministériels". Ces derniers comprennent les activités des provinces telles qu'elles apparaissent dans leurs prévisions budgétaires; elles portent en outre sur les dépenses pour l'emploi des fonds administratifs ou spéciaux. On trouvera une définition détaillée des fonds généraux dans le bulletin annuel de Statistique Canada intitulé Finances des administrations provinciales (n° 68-207 au catalogue).
2. ÉTABLISSEMENTS PROVINCIAUX D'ENSEIGNEMENT SUPÉRIEUR: il s'agit d'établissements d'enseignement du niveau universitaire qui relèvent des administrations provinciales, mais qui ne sont pas administrés par les agents d'un ministère. Ainsi, ce groupe exclut certains établissements qui, dans une certaine mesure, sont considérés comme des établissements provinciaux d'enseignement supérieur, par exemple, les écoles normales et les collèges d'agriculture et de formation professionnelle, etc. Ces établissements sont compris dans le premier groupe, "Services ministériels".

D'autre part, les données sur les "établissements provinciaux d'enseignement supérieur" comprennent les chiffres de l'emploi des organismes subsidiaires qui ne sont pas reconnus comme des établissements d'enseignement (le Laboratoire de recherches médicales Connaught de l'Université de Toronto, par exemple).

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead University
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music
University Press
Ryerson Polytechnical Institute
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Saskatchewan Hospital
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. ENTERPRISES: These are self reporting administrative bodies established by government to produce goods and services for sale to governments or others at a price to the users designed to compensate largely or wholly for the costs or to yield a profit.

A list of Provincial Government Enterprises is as follows:

Provincial Government Enterprises

4. WORKMEN'S COMPENSATION BOARDS: Separate data for the Workmen's Compensation Board of each province (for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

4. COMMISSIONS DES ACCIDENTS DU TRAVAIL: les données relatives aux Commissions des accidents du travail sont présentées à part pour chaque province (tout au moins pour les provinces pour lesquelles on dispose de données). Avant avril 1962, ces données étaient comprises dans "Entreprises publiques provinciales".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. Salary Earners include all those employees whose remuneration is based on an annual rate. These employees and positions may be of a continuing, term, sessional or part time nature. Wage Earners are divided into two groups: 1) Wage Earners Full-Time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are NOT employed on a full-time year round basis. Examples are seasonal, part-time and casual wage earners.

Employment and payrolls are reported monthly and in general are divided between Salary Earners and Wage Earners according to their basis of remuneration. The Gross Payrolls represent all monies paid to employees during the month, before any deductions for income tax, etc. For employees paid on a weekly or fortnightly basis the amount paid during all pay periods ending in the month is included. Retroactive and overtime payments are included in the month the payments are made. The numbers of employees relate to employment on the last day of the month or at the end of the final pay period of the month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

COMPARABILITY BETWEEN NUMBERS AND EARNINGS

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the payrolls reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed occur during a month it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

EMPLOYÉS À TRAITEMENT ET EMPLOYÉS À SALAIRE

Les statistiques présentées ici portent sur deux types de salariés: les employés à traitement et les employés à salaire. Les employés à traitement comprennent tous les employés dont la rémunération est fondée sur un taux annuel; leur emploi peut être permanent, pour une durée déterminée, pour une session ou à temps partiel. Les employés à salaire sont divisés en deux groupes: 1) Employés à salaire à plein temps: personnel employé à plein temps à longueur d'année mais rémunéré à l'heure, à la journée ou à la semaine; 2) Autres employés à salaire: personnel qui n'est PAS employé à plein temps à longueur d'année (employés saisonniers, employés à temps partiel ou employés occasionnels, par exemple).

L'emploi et la rémunération sont déclarés sur une base mensuelle; de façon générale, on le répartit entre les employés à traitement et les employés à salaire. La rémunération brute représente toutes les sommes versées aux employés au cours du mois, avant toutes déductions (impôt sur le revenu, etc.). Pour ce qui est des employés rémunérés à la semaine ou à la quinzaine, ces données portent sur les sommes versées au cours de toutes les périodes de paie terminées pendant le mois. La rétroactivité et le temps supplémentaire sont compris dans le mois où ils ont été payés. Le nombre d'employés porte sur l'emploi au dernier jour du mois ou à la fin de la dernière période de paie du mois.

Les employés à salaire comprennent les fonctionnaires qui sont nommés pour un an ou plus, tels les juges et les autres personnes travaillant dans les tribunaux et rémunérées par la province. Certains magistrats et juges des provinces sont nommés par le gouvernement du Canada, qui paie la plupart de leur rémunération stipendiaire. Comme le nombre de ces personnes et le montant que le gouvernement fédéral leur verse sont présentés dans Federal Government Employment, ils ne sont pas pris en compte ici. Toutefois, les salaires ou les allocations versés par l'administration provinciale apparaissent dans les notes de Federal Government Employment.

COMPARABILITÉ ENTRE LE NOMBRE D'EMPLOYÉS ET LA RÉMUNÉRATION

Les utilisateurs de ces données doivent éviter de faire des comparaisons directes entre le nombre d'employés et leur rémunération; en effet, le nombre d'employés est saisi le dernier jour du mois, dans tous les cas possibles, dans les autres cas, il est saisi pendant la dernière période de paie du mois. Comme dans certaines catégories (surtout chez les employés occasionnels), il se produit d'importantes fluctuations du nombre d'employés au cours d'un mois, la comparaison entre la rémunération brute de toutes les personnes employées au cours du mois et les effectifs à la fin du mois serait, dans bien des cas, erronée.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES

Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION

These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES

These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS

Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS

Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS

Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS

Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES

Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS

Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and overtime payments.

DÉFINITION DES PRINCIPAUX TERMES UTILISÉS

SERVICES MINISTÉRIELS

Aussi désignés par: activités des fonds généraux. Cela comprend les activités dirigées par les administrations publiques provinciales comme elles apparaissent dans leurs estimations et en plus, les dépenses de main-d'oeuvre des fonds administratifs ou spéciaux.

ÉTABLISSEMENTS PROVINCIAUX D'ENSEIGNEMENT SUPÉRIEUR

Ce sont les établissements d'enseignement au niveau universitaire qui sont sous le contrôle de l'administration publique provinciale mais qui ne sont pas administrés sous l'autorité d'un ministère.

ENTREPRISES DES ADMINISTRATIONS PUBLIQUES PROVINCIALES

Elles produisent des biens et services pour la vente aux administrations publiques ou aux autres agents économiques, à un prix généralement établi par référence à ses frais de production.

EMPLOYÉS À TRAITEMENT

Personnes qui touchent un traitement sur une base mensuelle ou annuelle. Ces emplois peuvent être permanents, à terme saisonniers, de session ou à temps partiel.

EMPLOYÉS À SALAIRE

Employés qui sont payés à l'heure, à la journée ou à la semaine.

EMPLOYÉS À SALAIRE À PLEIN-TEMPS

Personnes qui occupent un emploi permanent à plein temps.

AUTRES EMPLOYÉS À SALAIRE

Employés à salaire qui n'occupent pas d'emplois permanents et à plein temps (saisonniers, à temps partiel et intermittants).

NOMBRE D'EMPLOYÉS

Représente le nombre de personnes qui figurait sur la dernière feuille de paye du mois.

RÉMUNÉRATION BRUTE

La rémunération déclarée indique la paye brute de toutes les personnes payées pour le travail fait durant le mois qu'elles soient inscrites ou non sur la liste de paye à la fin du mois. Cela inclut les payes rétroactives, les ajustements de salaires et les paiements de temps supplémentaire.

JULY - SEPTEMBER - 1971 - JUILLET - SEPTEMBRE

INTRODUCTION

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1971.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

The cumulative gross payrolls reported by the provincial and territorial governments (excluding British Columbia as noted above) for the third quarter of 1971 amounted to \$725.4 million an increase of 5.1 per cent over the \$690.3 million reported for the second quarter of 1971. This increase is the result of (1) an additional pay period for those employees who are paid on a bi-weekly basis and salary increases and retroactive payments in the departmental services; (2) the operation of summer schools and commencement of the Fall Semester in the Institutions of Higher Education.

The number of employees reported for the last pay period in September 1971 was 402,993, an increase of 1.5 per cent over the 396,865 reported for the same period in June 1971. This increase results from normal seasonal activities in the provincial government sector.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments for the third quarter. Revised totals will be published in the next quarterly report.

NOTA

Une description complète de la méthode employée pour la collecte et le traitement des données statistiques peut-être trouvée dans la publication couvrant la période avril - juin 1971.

Les données des services ministériels, des entreprises publiques ainsi que la commission des accidents du travail en Colombie-Britannique ne sont pas disponibles et ne peuvent être inclus dans cette publication. Les données pour les établissements d'éducation supérieur dans cette province sont incluses.

Le nombre d'employés est celui du dernier jour du mois ou de la dernière période de paie du mois. La rémunération brute comprend tous les agents versés aux employés pendant le mois, avant les déductions pour l'impôt sur le revenu, etc. Les paiements rétroactifs et de surtemps sont inclus dans le mois où ils ont été versés.

La rémunération brute (excluant la Colombie-Britannique comme mentionné ci-haut) pour le trimestre écoulé entre le 1^{er} juillet et le 30 septembre 1971, atteignait \$725.4 millions, soit une augmentation de 5.1 p. 100 par rapport aux \$690.3 millions du trimestre précédent. Cette augmentation est le résultat: (1) d'une période de paye supplémentaire reçue par les employés rémunérés sur une base bi-hebdomadaire et d'augmentations de salaire et de réceptions de paiements de rétroactivité par les employés travaillant dans les services ministériels (2) des activités reliées aux cours d'été et du commencement du semestre d'automne dans les établissements provinciaux d'enseignement supérieur.

Le nombre d'employés déclarés à la fin de septembre 1971 était de 402,993 soit une augmentation de 1.5 p. 100 par rapport aux 396,865 déclarés à la fin de juin 1971. Cette augmentation est le résultat des activités saisonnières normales dans le secteur des administrations publiques provinciales.

A cause de délais inévitables dans la transmission des données mensuelles, des nombres ont dû être estimés pour quelques ministères pour le trimestre. Les rectifications qui s'imposent apparaîtront dans le prochain rapport trimestriel.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES

Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION

These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES

These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS

Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS

Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS

Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS

Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES

Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS

Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and overtime payments.

DÉFINITION DES PRINCIPAUX TERMES UTILISÉS

SERVICES MINISTÉRIELS

Aussi désignés par: activités des fonds généraux. Cela comprend les activités dirigées par les administrations publiques provinciales comme elles apparaissent dans leurs estimations et en plus, les dépenses de main-d'oeuvre des fonds administratifs ou spéciaux.

ÉTABLISSEMENTS PROVINCIAUX D'ENSEIGNEMENT SUPÉRIEUR

Ce sont les établissements d'enseignement au niveau universitaire qui sont sous le contrôle de l'administration publique provinciale mais qui ne sont pas administrés sous l'autorité d'un ministre.

ENTREPRISES DES ADMINISTRATIONS PUBLIQUES PROVINCIALES

Elles produisent des biens et services pour la vente aux administrations publiques ou aux autres agents économiques, à un prix généralement établi par référence à ses frais de production.

EMPLOYÉS À TRAITEMENT

Personnes qui touchent un traitement sur une base mensuelle ou annuelle. Ces emplois peuvent être permanents, à terme saisonniers, de session ou à temps partiel.

EMPLOYÉS À SALAIRE

Employés qui sont payés à l'heure, à la journée ou à la semaine.

EMPLOYÉS À SALAIRE À PLEIN-TEMPS

Personnes qui occupent un emploi permanent à plein temps.

AUTRES EMPLOYÉS À SALAIRE

Employés à salaire qui n'occupent pas d'emplois permanents et à plein temps (saisonniers, à temps partiel et intermittants).

NOMBRE D'EMPLOYÉS

Représente le nombre de personnes qui figurait sur la dernière feuille de paye du mois.

RÉMUNÉRATION BRUTE

La rémunération déclarée indique la paye brute de toutes les personnes payées pour le travail fait durant le mois qu'elles soient inscrites ou non sur la liste de paye à la fin du mois. Cela inclut les payes rétroactives, les ajustements de salaires et les paiements de temps supplémentaire.

INTRODUCTION

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April - June 1971.

NOTA

Une description complète de la méthode employée pour la collecte et le traitement des données statistiques peut être trouvée dans la publication couvrant la période avril - juin 1971.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

Les données des services ministériels, des entreprises publiques ainsi que la commission des accidents du travail en Colombie-Britannique ne sont pas disponibles et ne peuvent être inclus dans cette publication. Les données pour les établissements d'éducation supérieur dans cette province sont incluses.

The number of employees relates to employment on the last day of the month or at the end of the final pay period of the month. The payrolls represent all monies paid to employees during the period before any deductions for income tax etc. Retroactive and overtime payments are included in the month the payments are made.

Le nombre d'employés est celui du dernier jour du mois ou de la dernière période de paie du mois. La rémunération brute comprend tous les agents versés aux employés pendant le mois, avant les déductions pour l'impôt sur le revenu, etc. Les paiements rétroactifs et de surtemps sont inclus dans le mois où ils ont été versés.

The cumulative gross payrolls reported by the provincial and territorial governments (excluding British Columbia as noted above) for the fourth quarter 1971 amounted to \$748.7 million an increase of 3.2 % over the \$724.8 million reported for the third quarter 1971. This increase is the result of (1) an additional pay period for those employees who are paid on a bi-weekly basis; (2) salary increase and retroactive payments.

La rémunération brute (excluant la Colombie-Britannique comme mentionné ci-haut) pour le trimestre écoulé entre octobre et décembre 1971, atteignait \$748.7 millions, soit une augmentation de 3.2 % par rapport aux \$724.8 million du trimestre précédent. Cette augmentation est le résultat; (1) d'une période de paye supplémentaire reçue par les employés rémunérés sur une base bi-hebdomadaire (2) et d'augmentations de salaire et de réceptions de paiements de rétroactivité.

The number of employees reported for the last pay period in December 1971 was 391,616 a decrease of 2.7 % from the 402,247 reported for the same pay period in September 1971. This decrease is the result of normal seasonal reductions of part time employees in both the salary and wage earning categories.

Le nombre d'employés déclarés à la fin de décembre 1971 était de 391,616 soit une diminution de 2.7 % par rapport aux 402,247 déclarés à la fin de septembre 1971. Cette diminution est le résultat des activités saisonnières normales soit la mise à pied des employés à temps partiel.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments for the third quarter in the province of Quebec. Revised totals will be published in the next quarterly report.

A cause de délais inévitables dans la transmission des données mensuelles, des nombres ont dû être estimés pour quelques ministères pour le trimestre dans la province de Québec. Les rectifications qui s'imposent apparaîtront dans le prochain rapport trimestriel.

Data for the Province of Prince Edward Island for the third quarter 1971 have been revised; wage earning employees in the Highway Department were double-counted in error. See table 2 page 6.

Les données pour la province de L'Île-du-Prince-Édouard ont été révisées pour le troisième trimestre de 1971; les employés temporaires du ministère de la Voirie ont été inclus deux fois par erreur. Voir tableau 2 page 6.
